Dear Mayor Stubbs

We at the Busnet Computer Club wish to thank you for accepting our application for the most recent grant dated 26.08.2015. Having had our grant accepted has enabled us to purchase the sound system which allows us to present a very professional presentation to our members. When we engage people to speak at our meetings, not only will they now be heard by our members, but the presenter will have the tools to present in a very professional manner.

We would like to thank not only yourself but also the City Councillors. A special thanks should also go to Naomi Davey. Naomi with her first guidance presentation at the Hockey Club gave us the zeal to forge ahead down the track filling in the application and finally completing all the necessary data. She then came to Busnet to check over our application which enabled us to be in a position to submit our application feeling confident that we had ticked all the boxes.

Yes, it was a long wait to find out the results, but believe me it was very well worth that wait. The Public Address System will certainly be well used and we thank you very much.

Yours Sincerely

Jean A Bilborrow
